A surprise declaration has been received... from the man who took over Wiley's base! The message reveals that the illegal trespasser is ... KING!

King states that any robot who proves himself superior to human beings should rule the Earth!

...from the

King goes on to include a threat to steal the robot data from the museum.

Officials are taking the statements ... and the threat... with the most extreme seriousness.

## good guys mega man

This outstanding example of the robot race was developed as a kind household robot that lived a serene existence working as Dr. Light's assistant. However, in order to stop evil Dr. Wiley's plan of world conquest, this peaceful metal man requested Dr. Light to modify him into a battle robot.

## bass

Bass is a "special Wiley numbered" war robot, one of a battalion created by Dr. Wiley. His life's work is to defeat Mega Man with his own hands. But, in order to defeat King, the self-proclaimed "world's strongest robot," Bass had to make peace with Mega Man... temporarily.

#### **RUSH**

A support robot that Dr. Light made for Mega Man. Possessing an excellent sense of smell, Rush is outstanding at sniffing out hidden items.

#### **DR. THOMAS LIGHT**

Number one in Robot Engineering and Mega Man's creator. He goes all out to create robots that help mankind in peaceful ways. Whenever he sees someone in trouble he's the type of guy who just can't stand by and watch.

#### **ROLL**

An assisting engineer robot created by Dr. Light, Roll is loaded with practical advice for Mega Man and Bass. She's always ready to assist the mission with helpful hints.

#### **LIGHTOTT**

An assistant robot that helps Dr. Light with his research and in developing power-up parts.

#### **EDDY**

An item transport robot that Dr. Light created. It now has the ability to fly and can transport items rapidly.

#### **BEAT**

A support robot bird that Dr. Kossack made for Mega Man as a present. It is currently being modified to perform crash attacks as well as transport items.

#### **GOSPEL**

A support robot that moves with Bass. Gospel can transform as well as form one unit with Bass.

#### **BLUES**

Dr. Light's first attempt at making a humanoid robot. He moves of his own free will. He attempted to foil King's plot but was defeated.

## bad guys king

A robot that plans to take over the world and create a total robot supremacy. He stole the robot creation data from Dr. Light and Dr. Wiley and used it to generate an army of evil robots. He likes chess, but considers himself so good that no one can give him an even match.

## wiley

Albert W. Wiley was Dr. Light's classmate at robot engineering school, and has become his rival in professional life. He became involved in creating evil robots in his bid for world domination. Wiley was attacked while developing a new fortress and now lives in Dr. Light's research center.

**bosses**  
kgn 001  
**dynamo man**

This robot used to guide school kids on field trips through the power plant. But when King made him create an internal power generator that emitted a massive energy force field, no one could get close to him. After that Dynamo Man began to resent everyone!

**Special Weapon –  
LIGHTNING BOLT**

Fires off lightning, damaging all enemies in the area.

kgn 002  
**cold man**

King modified a sample of dinosaur DNA from a special freezer unit in Dr. Light's research center, turning it into a guardian robot. The center of this unit is always kept at absolute zero. It has the power to instantly freeze a target. Due to its low body temperature, it has a slow rate of movement.

**Special Weapon –  
ICE WALL**

Creates an ice wall that it pushes toward the opponent or rides to move at a more rapid speed.

## kgn 003 ground man

Developed to excavate ruins, Ground Man is the strongest robot of the King numbered series. Though always motivated to achieving his goals, he hardly ever speaks and has no feelings. He sometimes hordes treasure that he finds for his own personal collection, without telling King.

### Special Attack – SPREAD DRILL

Every time you press the B Button, Ground Man's shot splits into tiny drills, effective against heavily armored enemies.

## kgn 004 pirate man

Created to attack cargo vessels on the open sea, Pirate Man will use any method to achieve his goal. Recently several ships have been blown open and their cargos stolen. It is rumored that Pirate Man was behind these events. It's also rumored that his secret hideout is somewhere at the bottom of the sea.

### Special Weapon – REMOTE MINE

A magnetic electric mine that sticks to the enemy. After firing, you can control its vertical movement with the Control Pad. After it attaches to its target, explode it by pressing the B Button.

## kgn 005 burner man

Burner Man was created to destroy the environment! While developing this robot, King discovered a super high temperature gas that shot out fire. Burner Man believed King when he said, "You must burn a forest every day or your self-destruct bomb will explode."

**Special Weapon –  
WED BURNER**

Shoots out a flame in a wig-wag formation that can burn down anything.

## kgn 006 magic man

Formerly with the King Army Circus Group, Magic Man enlisted in King's army (he thought it would make him look cooler). He is always showing off magic card tricks to other troops, so actually he is considered something of a geek. He puts a lot of effort into researching his magic tricks, but few people think of him as a hard worker.

**Special Weapon – MAGIC CARD**

He fires cards straight to the right and straight up.

dwn 057  
**tengu man**

An experimental robot developed to artificially generate typhoons, Tengu Man was converted by Dr. Wiley into a battle robot. He enlisted in King's army to wreak revenge on Mega Man for disgracing him in a previous fight. He has undergone modification to make him effective at both close-in and distance fighting.

**Special Weapon – TENGU BLADE**

His blade fires a vacuum wave toward the enemy. He can slide and dash to perform a dash slash.

dwn 058  
**astro man**

This robot was revived using data that King stole from the museum. His main ability is to show planetarium images from a different dimension. He has been reprogrammed to attack, but the programming sometimes fails.

**Special Weapon – COPY VISION**

He creates a mirror image of himself, that not only attacks but also distracts the enemy.
